<b>Kursinformation</b>
<b>Kursnamn</b>
<i>Qualitative research and methods 1 (7,5 hp)</i>
<b>Beskriv studenternas förkunskaper – från föregående kurser i programmet.</b>
<i>4th course, 1st semester. Refer to the programme syllabus for earlier courses.</i>
<b>Beskriv vilka examensmål kursen svarar mot.</b>
<p><b><i>Knowledge and understanding</i></b></p> <ul style="list-style-type: none"><li><i>Demonstrate specialised methodological knowledge in the main field of study.</i></li></ul> <p><b><i>Competence and skills</i></b></p> <ul style="list-style-type: none"><li><i>Demonstrate the ability to critically and systematically integrate knowledge and analyse, assess and deal with complex phenomena, issues and situations even with limited information.</i></li><li><i>Demonstrate the ability to identify and formulate issues critically, autonomously and creatively as well as to plan and, using appropriate methods, undertake advanced tasks within predetermined time frames and so contribute to the formation of knowledge as well as the ability to evaluate this work.</i></li></ul>

**Beskrivning av kurs (design, ämnes- och professions integrering, etc.)**

*This course should be designed to introduce the foundations of research and knowledge generation and qualitative methods in global health research, from crafting research questions to data collection and analysis.*

*The course must include:*

- *What is science (philosophy of science), what is evidence?*
- *Ontology, epistemology, paradigms and methodologies of science.*
- *Introduction to the principles of qualitative and quantitative research and their key differences.*
- *Introduction to what a good research question entails and what type of questions are asked in different research paradigms.*
- *Introduction to the classical data collection methods used in qualitative research.*
- *Foundational knowledge of in-depth interviews as a core method of qualitative research.*
- *Introduction to the principles of qualitative data analysis.*
- *Foundational knowledge of thematic analysis.*
- *Introduction to concepts of reflexivity and trustworthiness in qualitative research.*
- *Foundations of ethics in qualitative research, with a strong focus on global health and ethics.*
